

The Ultra-portable, Rugged Display

Operate faster. Operate Smarter.

splay®

Dual-Use Display & Projector

Unmatched Benefits: Smaller, Lighter, Faster

U.S. AIR FORCE

“Splay’s combination of **compact portability** and **expansive screen size** is unmatched in providing our teams with the **flexibility and operational efficiency** we require in fast paced, high-stakes environments.”

Collapsible, dual-use functionality

- Remove screen for projector mode
- >3 lbs, extreme impact resistance

Advanced nanomaterial design

- Preserves warfighter’s visual acuity
- 180° viewing angle

Effortless deployment

- Set up in under 30 seconds
- Mount on tripod, vehicle, or tent pole
- Connect to any output device

Pack Lighter, Deploy Faster Strongest Display SWaP Specs Ever

Tactical Impacts

Compared to conventional 24.5" monitors:

- ✓ Splay reduces packed weight by 79%
- ✓ Splay reduces packed size by 90%
- ✓ Deployable in under 30 seconds
- ✓ Highly durable, impact and crack resistant

No heavy gear, no setup time, just better, more efficient decisions on the spot.

AWARD WINNING FOLDABLE DESIGN

Expand Human-Machine Interfacing Capabilities

Expand Splay, plug in HDMI, and access critical data in the field effortlessly

FIELD PROVEN

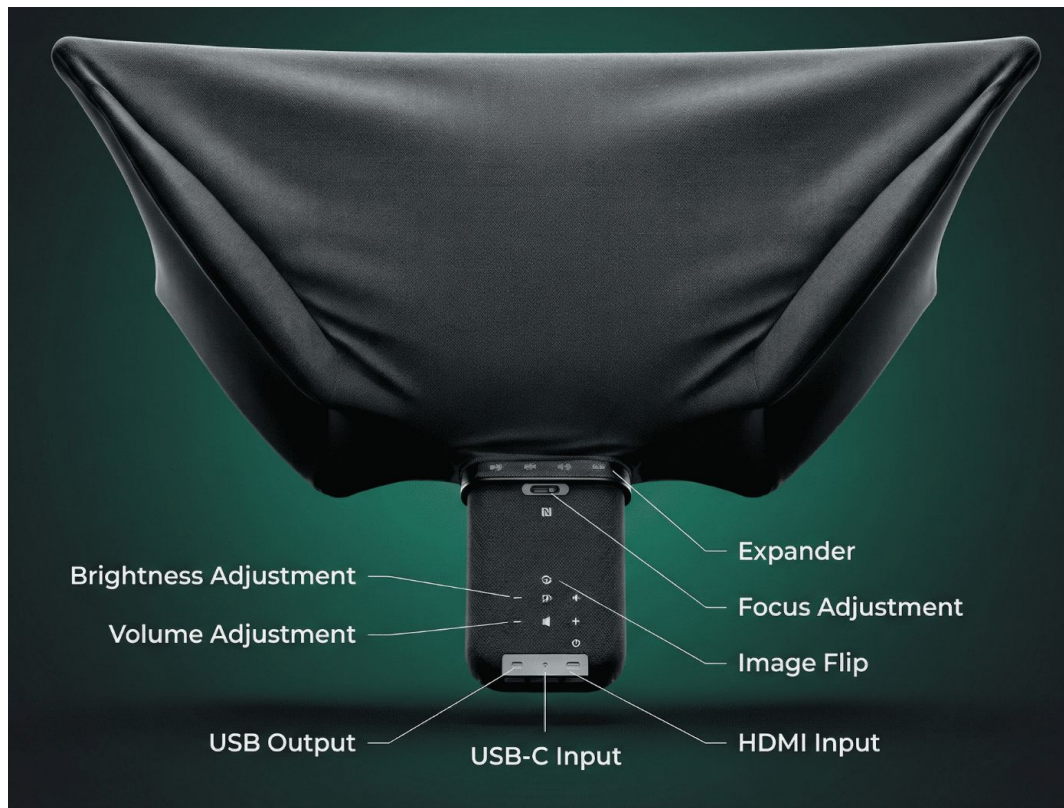

- **Cyber Fly-Away Kits**
- **Expeditionary Forces**
 - **Mobile Command Post**
 - **Air Briefings**
- **Drone Operators**
- **Mobile Intelligence**

→ Improve access to sensor, drone, and cyber data on the edge to operate smarter

AROVIA
